

ENVIRONMENTAL POLICY

Dellner Glass Solutions Ltd. is committed to minimising the impact of our activities on the Environment.

Our commitment to the environment is to:

- Comply with all relevant Environmental legislation, permits and consents.
- Implement the controls and procedures necessary to prevent pollution to land, air and water arising from our operations.
- Set Goals and Objectives for continuous improvement of our Environmental performance and management system and integrate these Goals and Objectives into our business planning, decision-making and business processes:
 - o Reduce our material consumption and waste by 5 % year on year relative to revenue through the application of the Waste Hierarchy and optimisation of our processes.
 - o Reduce our consumption of natural resources including a reduction of water use by 5% year on year relative to revenue through the implementation of water efficient technologies and working practices.
 - o Reduce our energy consumption by 5% year on year relative to revenue through the implementation of energy efficient technologies and the optimisation of our processes.
 - o Reduce our Carbon Footprint and Green House Gas emissions by 5% year on year relative to revenue through the application of energy efficient technologies, optimised processes and the use of energy from renewable sources
 - o Reduce our Scope 1 and Scope 2 CO₂ Emissions by 30% relative to revenue by 2030 compared to the 2024 Baseline.
- Monitor our Environmental performance through appropriate KPIs and review trends for improvement opportunities.
- Consider the environmental impact of our activities throughout the Supply Chain and Life Cycle of the product.
- Require that our Suppliers and sub-Contractors commit to responsible environmental procedures according to our Sustainable Procurement Policy
- Record and investigate all environmental incidents and near misses and implement appropriate actions to prevent recurrence.
- Implement effective emergency procedures, including communication to relevant external stakeholders, to mitigate the effects of any environmental incident.
- Promote environmental awareness within the organisation and provide our employees with the training, instructions, and information necessary to ensure that they can do their work in line with our environmental commitments, goals and objectives.
- Maintain an Environmental Management System aligned to ISO 14001 to support the achievement of our Environmental goals.
